

Machinist

ASYST Automation, a division of Asyst Technologies LLC, is seeking a highly skilled and experienced Machinist to join our team at our facility in Kenosha, WI.

Key Tasks

- Calculate dimensions and tolerances using knowledge of mathematics and instruments such as micrometers and Vernier calipers.
- Machine parts to specifications using machine tools such as lathes, milling machines, shapers, or grinders.
- Measure, examine, and test completed units in order to detect defects and ensure conformance to specifications, using precision instruments such as micrometers.
- Set up, adjust, and operate all of the basic machine tools and many specialized or advanced variation tools in order to perform precision machining operations.
- Align and secure holding fixtures, cutting tools, attachments, accessories, and materials onto machines.
- Monitor the feed and speed of machines during the machining process.
- Maintain the material condition of and perform routine preventative maintenance on all machine shop equipment such as; lathes, milling machines, cut-off saws, or grinders.
- Assist in maintaining accurate and up to date technical references that include; blue prints, schematics, and data.
- Follow all safety rules and practices.
- Other duties as assigned by Design and Production Manager.

Position Requirements

- Extensive experience in manufacturing fixtures, gages and tooling from blueprints or sketches
- Ability to read and interpret blueprints
- Effectively communicate with supervisor
- Good verbal and written communication skills
- A four year apprenticeship program or equivalent job experience supplemented by classroom instruction. A minimum of four years' experience in a similar machine shop environment.

We offer a competitive salary plus a full range of benefits including medical, dental, disability, life, flexible spending accounts, 401(k), educational reimbursement, and more. **ASYST** Technologies LLC is an Equal Opportunity Employer.
